Report Purpose:

To consider the proposed rates in the dollar for differential rating to be advertised prior to the adoption of the 2022/23 Budget.

Background:

There is provision under the *Local Government Act 1995* to impose differential rates within the local government’s boundaries and in considering this imposition, there are certain statutory obligations that the local government must comply with:

- Before any consideration to the Budget, the local government is required to give local public notice of its intention to impose differential rates;
- The local government must provide information of each new rate or minimum payment;
- Electors or ratepayers are invited to make submissions in respect of the proposed rate or minimum payment. This submission period must be for a minimum of 21 days; and
- Application must be made to the Minister for Local Government, Heritage, Culture and the Arts seeking approval to impose a differential rate that is more than twice the lowest rate.

The Shire of Irwin historically has used differential rates to levy a higher rate in the dollar for Mining Tenements than other Unimproved Valuation (UV) properties. This practice is common within local governments.

A draft budget workshop was held on Thursday 19 May 2022 where Councillors reviewed the projected changes in operating revenue and expenditure, along with efficiency measures, proposed capital works and projects. The differential rates will directly influence Council’s ability to fund expenditure requirements in the 2022/23 Budget.

Officer’s Comment:

For Council to meet the requirements of the Act it is required to advertise the proposed differential rates within timeframes to meet the 21 day minimum advertising period before the budget is adopted.

An overall increase of 4.5% on the actual revenue raised in the 2021/22 financial year will just meet

requirements of the 2022/23 Budget. The 4.5% increase partially accounts for the current 5.1% inflation rate.

Differential rating allows Council to maintain a degree of equity between rates levied on all unimproved value assessments within the Shire of Irwin rate base whilst providing income annually to allow for the service requirements of all property owners. The reasoning for levying the higher rate in the dollar can be found in the attachment - Statement of Objects and Reasons.

It is worth noting that while both UV Rural and UV Mining are based on “Unimproved Values” provided by the Valuer General, the *Valuation of Land Act 1978* prescribes different methods of calculating each one.

The unimproved valuation of land utilised for rural purposes is the capital amount that the property (not including improvements) might reasonably be expected to realise upon sale.

The unimproved valuation of land used for mining tenements is calculated on the annual rent per hectare multiplied by a factor, the amount of which depends on the number of hectares and type of lease held. They therefore have no relativity and cannot be compared.

Unimproved Valuations

Landgate has advised that the total unimproved valuation for the Shire of Irwin has increased by an overall average of approximately 14.72% to \$140,591,200.

The Valuer’s comments also suggest that there is a possibility of a slight change to this figure due to the effect of interim valuations.

In the letter, the Valuer also makes the following comments:

“OVERALL VARIATION TO UNIMPROVED VALUATIONS

The market for broadacre rural properties has continued to improve on the back of low interest rates, relatively good seasonal conditions, and strong commodity prices.

The impact of the Covid19 pandemic has seen increased interest in rural smallholdings which has taken up excess supply in the market and seen prices improve after decreases in recent years.

Some variations to individual assessments may have occurred either as a product of the valuation process and/or inclusion of updated information such as soil types.”

It should be noted that individual property values will change by more or less than the average increases reported above and therefore when rate notices are issued they will not necessarily reflect a 4.5% increase in rates on their property.

Gross Rental Valuations

Landgate provided a new Gross Rental Valuation (GRV) which took effect as of 1 July 2019. The next revaluation will occur approximately 2023.

Mining Valuations

Landgate will not provide the Mining Valuation Roll until July / August 2022, therefore the rates in the dollar are based on current valuations. Interim valuations will be undertaken when the new UV Mining Valuation Roll is received.

The proposed rate in the dollar has been calculated by using the actual rates raised as at 1 July 2021 and then adjusted by any full year equivalent increase or decrease for interims received for the year.

The proposed rates of \$5,926,056 includes the 4.5% increase on 2021/22 rates and interim revenue of \$27,032. Due to the increase in UV valuations, the rates in the dollar decreased slightly with the minimum rate remaining unchanged from 2021/22. The draft budget is still being finalised and is subject to change due to the end of financial year processes.

2022/23 Proposed Rates Revenue		
Gross Rental Value (GRV)	3,337,848	56%
Unimproved Value (UV)	2,079,282	35%
Unimproved Value (UV) Mining	508,928	9%
	\$5,926,058	100%

Consultation:

Once adopted, the proposed differential rates together with the objects of imposing differential rates and reasons for each rate category must be advertised for a minimum period of 21 days. This period of advertising allows ratepayers to consider the proposed rates and make any submissions to Council. The advertising process does not prevent Council from amending the rate in the dollar at budget adoption.

Statutory Environment:

Local Government Act 1995

- Section 6.33 Differential general rates
- Section 6.36 Local government to give notice of certain rates

Policy Implications:

In accordance with the Department of Local Government and Communities' Rating Policy – Differential Rates, Council must demonstrate that consideration has been given to the key values of Objectivity, Fairness and Equity, Consistency, Transparency and Administrative Efficiency.

Objectivity

The land on which differential general rates has been rated according to one or more of the following land characteristics:

- zoning
- land use
- vacant land

Where there has been a change to the boundaries of the district within the past five years, the land on which differential general rates apply may also be rated according to one or more of the following land characteristics:

- whether or not it is situated in a town-site
- whether or not it is situated in a particular part of the district.

The local government has proposed a differential general rate which is more than twice the lowest differential rate.

Fairness and Equity

The Council of the local government has reviewed its expenditure and considered efficiency measures as part of its budget deliberations. This is to be reflected in the council minutes when it adopts the budget strategy and endorses objects and reasons for each differential rating category and each minimum payment.

The objects of imposing differential rates and reasons for each proposed differential general rate are set out by the local government in a publicly available document.

These objects and reasons clearly explain why each differential general rate is proposed to be imposed.

The objects and reasons clearly explain why it is proposed to set the differential general rate at that particular rate.

If a category of ratepayer is significantly contributing to the local government's revenue through fees, charges and other payments, the local government has not used these same costs as the justification for the difference in differential general rate.

If there are fewer than thirty ratepayers who will be subject to the differential general rate, each affected

ratepayer has been informed in writing by the local government of:

- the terms of this policy (through the provision of a copy of this document to the ratepayer
- the local government's objects of and reasons for proposing to impose the differential general rates
- the differential general rate that will apply to the ratepayer's property; and
- the differential general rate that applied in the previous year for comparison

and was given at least 21 days to make submissions to the local government on the proposal.

The ratepayers' submissions, if any, and the local government's response to each ratepayer's submission (as recorded in the minutes of the Council meeting at which the response was adopted) have been provided to the Minister.

Consistency

The local government has rated similar properties that are used for the same purpose in the same way.

The proposed differential rates align with the rating strategy in the Corporate Business Plan and Long Term Financial Plan or the council of the local government has detailed its reasons for deviating from that rating strategy.

The local government has reviewed and considered rates proposed in neighbouring or similar local government districts in the rating strategy.

Transparency and administrative efficiency

The local government has:

- prepared and made publicly available a document clearly describing the object of and reason for each differential general rate;
- given public notice in a newspaper circulating generally throughout the district and exhibited to the public on a notice board at the local government's office and at every local government library in the district (refer to Rating Policy – Giving Notice)
- published the notices after 1 May in the relevant year.

The public notice published by the local government contained:

- details of each differential general rate that the local government intends to impose
- an invitation for submissions to be made by an elector or ratepayer
- a closing date for submissions which is at least twenty one days after the day on which the notice is published
- advice on the time and place where a document containing the objects of and reasons for the differential general rates can be inspected.

The council of the local government has:

- considered each ratepayer submission (if any)
- resolved to make the application provided the Minister with the minutes and agenda papers relevant to these matters.

Financial/Resource Implications:

The Shire's principle source of income is through rates. It is an essential part of the budget process that the Council consider the level of rates that need to be raised in the context of funding the annual budget. It must also be noted that as other income, such as fees and charges are fixed by external legislation, there is very little scope for the Shire to increase this revenue source to keep up with the rising costs of service provision and reduction of grant funding, therefore, these increasing costs must be borne by increases in rates.

For Council to consider waiving a portion of the season package fee for the Dongara Tennis Club (the Club).

Background:

The Dongara Tennis Club has been invoiced for an annual season package fee of \$5,495 including GST for the use of the facilities at the Irwin Recreation Centre, including the hire of the Ocean Room and tennis courts for the 2021/22 season.

In 2020/21, the Dongara Tennis Club was invoiced for an annual season package fee of \$5,495 and at the 27 April 2021 Ordinary Council Meeting, Council approved a reduction in fees of \$2,500 for the 2020/21 season.

Officer’s Comment:

The Shire received a letter from the Dongara Tennis Club on 25 April 2022 requesting that the season package fees be reduced due to the Club having only 29 members paid up for the 2022/23 season with an average of 12 players turning up to play each week. This is an increase of only 2 members from the previous 2021/22 season. In addition, the Club has taken all opportunities to fundraise including at the 2021 Show and Shine and the Drive-In to assist with meeting club costs. Further information is outlined in the correspondence provided as Attachment 1 and Attachment 2.

The Club’s income is insufficient to cover costs associated with equipment, Tennis West affiliation fees, responsibility to upgrade/maintain the fence and the Shire’s season package fee. With minimal change to the Club’s membership revenue and expenses from the 2020/21 season, the Club is therefore requesting that their long-term overall costs be reviewed and that the 2021/22 season package fee be reduced by \$2,500 including GST, to ensure long term sustainability of the Club and their continued ability to promote the sport within the Shire of Irwin.

Council has delegated authority to the Chief Executive Officer to waive fees up to a value of \$1,000 including GST, however given this request exceeds this limit, it is presented to Council for consideration.

It is recommended that Council grant this request to the Dongara Tennis Club to ensure long term sustainability of the Club, the promotion of the sport within the Shire of Irwin and the continued use of the tennis courts at the Irwin Recreation Centre with ongoing season package fees reviewed each year as part of the budget process.

It is also recommended that a review of the season package fees be undertaken as part of the setting of fees and charges in the 2022/23 Annual Budget and future budgets, subject to an annual internal review of the Club's membership figures and until it is determined that they have reached a point of independent sustainability.
