## **WILSON, Kellie**

I've lived in the Irwin Shire for 12 years with my husband and our 4 kids, falling in love with the purity of nature's surroundings here. For years I've been an active volunteer in many local community groups, assisting and running different events, committee roles and dedication to work. Being open-minded, enthusiastic and committed, to again being involved as a councillor, to succeed with taking on the tasks and challenges of community endeavours. I'm passionate about "us" as the people, the environment, local organisations and activities, that will see benefits for locals' and growth for tourism' ex: Pump Track. And I would love to hear of any new ideas to be beneficial for our tomorrow's future, from working the lands of farming, to local roads, out to the deep blue sea. Thank you.
