

## PRESIDENT'S UPDATE

09 March 2021

To the residents of the Shire of Irwin,

As we head into our lovely season of Autumn, I feel it timely to acknowledge the good work of our CEO and Staff on implementing a significant amount of Council's directives:

- Demolition of the Shell Roadhouse on Brand Highway;
- Surf Beach stabilisation;
- Town tree planting;
- Wheelchair friendly BBQ at the foreshore;
- Granny's Beach wall repair; and
- Moreton Terrace tree pruning.

Not to mention the very well-structured Strategic Community Plan Engagement Sessions held last Thursday with a Community Leaders Workshop still to come, followed by delivery of the outcomes and adoption of the final plan expected by the end of June. Thanks once again to Shane and staff on the great results being delivered so early in the year to date.

We look forward to the Moreton Terrace Upgrade tender process being completed and work commencing late April. As ratepayers, please continue to liaise with Councillors on any concerns or expressions of support that you may have from time to time as we continue to deliver the best possible outcomes for our Community on a very limited budget.

**Mike Smith**  
Shire President
